HIGH SPEED ALUMINUM CUTTING MACHINE

2MF TS HS

Designed for HIGH SPEED CUTTING plates out of aluminum slabs, the 2MF TS HS is the results of twenty years of innovations in aluminum cutting solutions.

This machine's ability to cut in both the vertical plane and horizontal plane, makes it the ideal machine for cutting large aluminum blocks and ingots.

The fixed head and the moving table allows for the possibility of making several cuts without moving the material, thereby simplifying and drastically reducing material handling.

Key Features:

- Blade speed up to 3000 m/min
- Rotating blade guide 0-90°C
- Hard metal blade ready
- Braking flywheels
- Excellent cut piece
- Tight tolerances
- Raised table support for an easy loading operation
- Dry cut
