

STEEL CUTTING MACHINE

VAS OSF

Decades of experience and research in sawing technology and technical expertise has enabled us to give life to a large sawing machine designed specifically for cutting big stainless-steel plates.

The sophisticated and robust, rotating blade guide system allows you to cut both vertically and horizontally without repositioning the material, rip and strip. A huge savings in operator time and material handling costs.

This machine is also equipped with vertical locking vises that allows cutting of multiple plates at one time.

PRODUCT HIGHLIGHTS

- Rotating Blade Guide
- Vertical Clamps
- Blade Speed for Steel
- Anti-Vibration System
- Independent Vises

PRODUCT RANGE

6250 X 300 X 2000

Cutting Capacity (mm)	300
Throat (mm)	2,000
Head Stroke (mm)	6,250
Blade Dimension (mm)	9,360 x 41 x 1.3
Blade Speed (m/min)	10 ÷ 100
Blade Motor Power (kW)	7.5
Weight (kg)	28,500

8250 X 300 X 2000

Cutting Capacity (mm)	300
Throat (mm)	2,000
Head Stroke (mm)	8,250
Blade Dimension (mm)	9,360 x 41 x 1.3
Blade Speed (m/min)	10 ÷ 100
Blade Motor Power (kW)	7.5
Weight (kg)	44,600
