## STEEL CUTTING MACHINE

### SV TS

The SV TS is a vertical bandsaw with a moving table for use in varying applications; flexibility and simplicity at its best. This machine is designed for heavier loads. The material works its way through the saw by way of moving table that runs along 4 linear way guides, driven by ballscrew and brushless motor. The table features “T” slots, that allow for convenient clamping of any material even irregular shapes.

The overall robust build and advanced technology are the main features of this machine. Expect optimum performance both with bimetal and carbide blades.

#### Key Features

- Simple to operate
- Quick set-up
- Notch cutting can be set-up as well
- Load capacity up to 10 tons

## PRODUCT RANGE

### 1500

|                        |                  |
|------------------------|------------------|
| Cutting Capacity (mm)  | 800              |
| Throat (mm)            | 750              |
| Table Stroke (mm)      | 1500             |
| Blade Dimension (mm)   | 6,850 x 54 x 1.6 |
| Blade Speed (m/min)    | 10 ÷ 100         |
| Blade Motor Power (kW) | 9.5              |
| Weight (kg)            | 7,000            |

### 2500

|                        |                  |
|------------------------|------------------|
| Cutting Capacity (mm)  | 800              |
| Throat (mm)            | 750              |
| Table Stroke (mm)      | 2500             |
| Blade Dimension (mm)   | 6,850 x 54 x 1.6 |
| Blade Speed (m/min)    | 10 ÷ 100         |
| Blade Motor Power (kW) | 9.5              |
| Weight (kg)            | 9,000            |
