STEEL CUTTING MACHINE

ONL

This dual-column, horizontal and fully automatic bandsaw is designed for cutting solid bars or bundles where high volume output is required. It provides leading-edge performance and extreme cutting accuracy even under the toughest conditions. This machine features a hydraulic head feed controlled by a proportional valve.

These are the attributes that place this bandsaw as an industry leader in its segment. The ONL horizontal bandsaw contains the typical values of our tradition; durability, proven performance, incredible accuracy, and a low cost per cut.

Key Features

- Excellent cut piece
